Boarding

- Seven Seas Mariner cruise ship: 5 embarkations between 2001 and 2005. A boat designed for luxury voyages, but technically demanding.
- SNCM passenger ships: sailing between Marseille and Corsica or Algeria. The SNCM: a historic company with its own special atmosphere on board. Many boardings between 2007 and 2010

I also had the opportunity to discover other types of ships:

- CMA-CGM container ship: a boarding as a student. Discovering the world of merchant ships.
- Gasier 1 embarkation as a deck officer: learning the safety standards typical of the oil and gas industry.
- Oceanographic vessels chartered by Ifremer. two embarkations. or the exciting world of scientific research.

The different periods of navigation are recorded in my

maritime logbook

also known as the fasicule.
